

## O2 COMMUNICATIONS - Hosted Extension Critical Information Summary

This summary may not reflect any discounts or promotions which may apply from time to time.

O2 communications Hosted Extension provides hosted telephone extensions from a cloud-based PBX system. It comes with a full range of features without the need to maintain a PBX system on your premises. Each extension includes an Australian phone number, or you can retain your existing numbers which we will port to o2 Communications. The service requires internet connectivity, which can be provided by o2 Communications on request. The number of simultaneous calls your phone system can support is equal to the number of o2 Communications Hosted extensions you select. If you order 4 \* o2 Communications Hosted Extensions with 4 simultaneous calls, then your system will be able to make or receive 4 simultaneous calls which can be all inbound, all outbound or any mix thereof.

### Minimum Contract Terms = 36 Months

	O2 COMMUNICATIONS Hosted Extension (Handset Included)	O2 COMMUNICATIONS Hosted Extension (Handset not Included)

### Maximum Early Termination Charges

be applied by us..

If you cancel your Business SIP service, or it is disconnected, Early Termination Fees (ETF) may be applicable. If you are on a 36-month contract, this fee is calculated as your monthly access fee, multiplied by the months remaining in your termed contract. If you have a Hardware Rental agreement, you will be charged using the same formula, regardless of your Business SIP contract status.

### Information about the service

#### Service Availability

Service not available to all areas, site addresses or customers. The type of service offered may need further qualification checks to determine what is available at your location. We will try to contact you if all your services cannot be connected.

#### Other Important Conditions

The service is provided under our Standard Form of Agreement <http://www.o2communications.com.au>

#### Hardware

If selected, we will provide you with a desktop handset that supports voice services. We recommend you consider additional security options to suit your network environment and business needs. As no service can provide a guaranteed 100% up time, we recommend that you maintain an alternate service as a backup, such as a mobile voice service. O2 Communications has a number of alternate services available on request. If you are using your own handsets, please contact us to confirm that your handsets are supported.

#### Other Charges

This is a self-installed service, in addition to the monthly charge, you may pay the following connection, equipment, and installation charges:

- If you request us to install the service, we will charge you \$399 minimum + \$99 per Handsets if a technician visits your premises. (excluding GST)
- Additional charges apply for non-standard installations such remote area installations. These charges will be billed on your invoice.

#### Fair Use Policy

You must comply with our Fair Use Policy and not use your services in an unreasonable or fraudulent manner or in a way that detrimentally interferes with the integrity of the network. We may take action if you breach the Fair Use Policy, including suspending or cancelling your service, or reducing its speed.

#### Understanding my bill

Your bill is issued on the same date each month. You're billed in advance for the minimum monthly charge, and in arrears for any usage not included in your plan. You may also be charged for individual services until all those in your plan are connected, so your first few bills may be higher or lower than expected. When you start or change your plan part way through a billing period, your first bill will have additional charges.

#### Need help? We're here for you.
